1 Association Reference Data

Association	Serbia (YU)
Commencement date	01 August 2014
Regions	<ul style="list-style-type: none"> • Vojvodina (VO-xxx) • Zapadna Srbija (ZS-xxx) • Centralna Srbija (CS-xxx) • Istočna Srbija (IS-xxx) • Južna Srbija (JS-xxx)
Association parameters ¹	
Summit operation criteria	Operation must be within 25m vertically of the summit
Band 1, score 1 point	Summit altitude less than 750 metres a.s.l.
Band 2, score 2 points	Summit altitude between 750 and 899 metres a.s.l.
Band 3, score 4 points	Summit altitude between 900 and 1099 metres a.s.l.
Band 4, score 6 points	Summit altitude between 1100 and 1349 metres a.s.l.
Band 5, score 8 points	Summit altitude between 1350 and 1599 metres a.s.l.
Band 6, score 10 points	Summit altitude more than 1600 metres a.s.l.
Seasonal bonus	Yes
Bonus rationale	Winter period with highest probability of snow and sub-zero temperatures
Min. height for bonus	3 Points for activations $\geq 1100\text{m}$ ASL
Bonus period dates	1 December to 31 March inclusive
Association sponsored awards	None

(1) See General Rules for parameter definitions

1.1 Programme derivation

YU SOTA is an extension of similar programmes already active in other countries.

The summit database is unlikely to be complete. If you find a summit which you'd like to add to SOTA-YU, or you find a mistake in this ARM please contact the Association Manager. Summits cannot be counted for points until a reference number has been allocated by the Association Manager.

1.2 General information

For administrative purposes and by taking into consideration specific geopolitical parameters, 5 regions have been defined:

1. Vojvodina (VO)
2. Zapadna Srbija (ZS)
3. Centralna Srbija (CS)
4. Istočna Srbija (IS)
5. Južna Srbija (JS)

The region of Kosovo is administered by the United Nations under resolution 1244 of the UN Security Council. By the decision of SOTA Management Team, this region is currently excluded from the SOTA programme.

To qualify for a summit it has to meet the following requirements:

- The summit must be listed in the common available topographic maps
- The summit must have at least 150 m prominence
- In the case of doubt the Management Team will decide whether the Summit will be added to the list

The summit database does not claim to be completed and can only be changed by the acceptance of the management team. Summits cannot be counted for points until a launch date and reference number has been allocated by the Association Manager and approved by the SOTA Management Team.

1.3 Rights of way and access issues

Only mayor and well visited mountains in Serbia have marked footpahs. Allways follow the footpaths wherever is possible. We (the Association team) do not know anything about summits which are private property. Landowner permits generally are not necessary for paths passing through private land, as long as basic rules of responsible conduct are obeyed (not disturbing the cattle, closing the gates left behind, no littering, etc).

If the police, military or telecommunication structures are on the routes, or on the summits, then the signs with orders, or the warnings from the authorised persons must be obeyed. For access to summits located close to the country border, a permit from the local police station should be obtained.

Certain summits are located within National parks or Nature reserves. In those cases, rules of conduct specific to the area must be obeyed.

1.4 Maps and navigation

Unfortunately, maps of Serbia are scarce and hard to obtain. Topographic maps issued by the Military Geographical Institute (<http://www.vgi.mod.gov.rs>) are not available for individuals or for foreign residents.

Certain areas have good maps issued by National park or Nature reserve institutions or by local mountaineering and hiking groups.

1.5 Safety considerations

Before hiking always consult a weather forecast. Please remember that weather in the mountains can change rapidly and you should be always prepared for snow, rain, strong wind or intensive sun, especially over 1000 metres a.s.l.

In case of emergency you should call police 192. Before your hike, visit the web of Mountain Rescue Service Serbia (www.gss.rs) and write down their phone numbers for the area you are planning to visit.

1.6 Foreign HAMS in YU

Holders of CEPT Licenses are authorised to transmit according to according to CEPT Recommendation T/R 61-01. You should prefix your callsign with "YU".

If you'd like to transmit from Serbia for longer than 3 months you should contact the Republic Agency for Electronic Communication (www.ratel.rs) to obtain Serbian licence

1.7 Awards

There are no Association-specific awards at the moment.

1.8 Disclaimer

Hiking, hill-walking and rock-climbing are potentially dangerous activities. The SOTA Management Team and their associates assume no responsibility for accidents.

Participants must be competent to undertake their proposed Expedition and must carry suitable equipment, taking account of the terrain, weather conditions, etc. Activators take part in the Programme entirely at their own risk and the Programme in its entirety shall accept no responsibility for injury, loss of life or any other loss. Activators are reminded that hill climbing is an inherently hazardous activity. Accidents can and do happen in the mountains and the risk is neither increased nor mitigated by the SOTA programme.

Each participant does so at his or her own risk, and must decide, on the basis of their own ability, whether an objective is achievable. The listing of a summit in the reference does not mean that it is easy to reach, and it is always worth seeking local advice for all but the simplest of the expeditions.

2. Summit Reference Data

2.1 Region Reference – Vojvodina

Association	Serbia (YU)
Region	Vojvodina (YU/VO-xxx)
Region manager	Refer to Association Manager

2.1.1 Regional notes

Vojvodina is located in the Pannonian plain, north from rivers Sava and Danube. Summits are below 650m height.

2.1.2 Table of summits

Ref.	Summit name	Alt (m)	Alt (ft)	Latitude	Longitude	Prominence (m)	Valid from	Valid to	Score
YU/VO-001	Gudurički vrh	641	2103	45.13711	21.41252	303	01/08/2014		1

2.2 Region Reference – Zapadna Srbija

Association	Serbia (YU)
Region	Zapadna Srbija (YU/ZS-xxx)
Region manager	Refer to Association Manager

2.2.1 Regional notes

Zapadna Srbija (Western Serbia) region stretches from the border with Montenegro (south), to the river Sava (north), along the border with Bosnia and Hercegovina on the west and roughly by river Ibar on the east. The mountains belong to Inner Dinarides, and the average height of the summits is 1200 meters.
